## **DETAILED ACTION**

This responds to Applicant's Arguments/Remarks filed 10/25/2010. Claims 1, 15, 33, 37-38, and 40 have been amended. Claims 9-14, 16-32, 34, and 41-43 have been cancelled. Claims 1-8, 15, 33, and 35-40 are now pending in this Application.

### Response to Amendment

- 1. Applicants have amended Claims 1 and 33 to remove new matter. Thus, the rejection of Claims 1 and 33 under 35 U.S.C. § 112, first paragraph, is withdrawn.
- 2. Applicants have amended Claim 33 to now recite statutory subject matter. Thus, the rejection of Claim 33 under 35 U.S.C. § 101 is withdrawn.

#### Allowable Subject Matter

- 3. Claims 1-8, 15, 33, and 35-40 are allowed.
- 4. The following is an examiner's statement of reasons for allowance: the prior art of record neither anticipates nor renders obvious Applicant's claimed invention as amended in Claims 1, 15 and 33. There are inventions in the domains of responsible gambling, safe gaming, and gambling insurance yet none claim Applicant's claimed invention wherein during a game a wager amount is checked for a triggering condition for presenting a confirmation message to be displayed before the player accepts the wager wherein the amount selected is greater than a predetermined amount not the minimum wager amount for the game to be played and a signal is initiated by the player after display of the confirmation message that the amount wagered is the amount the

Application/Control Number: 10/791,028

player desires to wager. The closest prior art in safe gaming is U.S. Patent Pub. No. 2001/0031663 to Johnson wherein Johnson discloses a system in which a player's activities are tracked such that the system "interjects alerts to the individual when reaching loss limits, time limits, or when changes in gambling behavior signal an issue ..." [0011]. The system "also provides real time alerts when a player approaches thresholds or limits of the parameters set for him/her while gambling or when player exhibits significant changes in individual gambling behavior" ([0013]). However, Johnson is silent on the specific criteria to trigger the alert as claimed by Applicant. U.S. Patent Pub. No. 2003/0190944 to Manfredi et al. discloses a system of self-limit play (Abstract) wherein limits can be predetermined prior to game play of which a player is presented a displayed confirmation as to his/her settings (Fig. 5). However, Manfredi is silent on a confirmation as claimed by Applicant which would occur during play to momentarily interrupt play. Manfredi's confirmation message operates differently i.e., to turn self-imposed limits on or off rather than during play to warn or advise of a wagered amount as claimed. U.S. Patent Pub. No. 2002/0073021 to Ginsberg helps clients control risk ([0062]) and issues warnings subject to criteria {[0063]) yet upon further thought and consideration the Examiner believes the warnings are based on

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on

accumulated wagering or losses ([0062]) or, a loss rate, rather than on an individual

wager amount being greater than a predetermined amount as claimed.

Statement of Reasons for Allowance."
